Let's talk about courage,
and why we need it more than ever.

Courage is independent and disruptive.
Courage questions, shatters and awakens.

We need bold, courageous voices.
All of us.
We need fresh thinkers with optimism.

We believe in the frontrunners.
The avantgarde, those who fight stagnation
and backwardness.

Courage only knows moving forward.
Driving the pioneers of our culture
to inspire tomorrow.
To create a sublime kind of new.
Reaching a superior level of excellence.

This is where
a new kind of luxury is born.

PRESENCE
IS THE POWER
THAT ATTRACTS
ALL ATTENTION.
THROUGH ELEGANCE.
THROUGH STRENGTH.
THROUGH
A SETTING
THAT CHANGES
EVERYTHING.

THE SECRET OF CHARISMA:
SOMEONE WHO IS
CONVINCED OF HIMSELF
ALSO CONVINCES
EVERYONE HE MEETS.

POWER DOES NOT ARISE
ON STRAIGHT SECTIONS.
IT ACCUMULATES
BEFORE OBSTACLES
AND CHALLENGES.
BECAUSE DOUBTS DON'T
SMOOTH THE WAY,
BUT CONVICTIONS DO.

DESIGN IS THE LOVE
OF PERFECT FORM.
TECHNOLOGY IS THE PASSION
FOR GREAT IDEAS.
CHARACTER IS CREATED
WHEN BOTH ARE UNITED.

A photograph of the rear interior of a luxury car. The seats are upholstered in light brown leather with a prominent diamond-quilted pattern. A central console, also in quilted leather, features a recessed area with a dark surface, possibly a screen or a storage compartment. The floor is covered in dark wood-look trim. Sunlight streams in from the right, creating strong highlights and shadows across the leather and wood. The background shows a blurred view of a city street through the rear window.

DOES LUXURY HAVE A COLOUR?
A FORM?
OR IS IT
THE INTERPLAY
OF A THOUSAND DETAILS
THAT TURN A GREAT
PHILOSOPHY INTO A
TANGIBLE EXPERIENCE?

THE FIRST PERSON
TO SEE NEW HORIZONS
IS THE ONE
WHO DRIVES AHEAD
ON THE ROAD.

IF YOU DON'T NEED ANY
GREAT WORDS OR DEEDS
TO CONVINCE YOURSELF,
YOU CAN TREAT YOURSELF
TO THE LUXURY OF BEING
COMPLETELY AUTHENTIC.

IN A WORLD
WHERE MANY PEOPLE WANT
TO OPTIMISE THEMSELVES,
IT IS THE
GREATEST LUXURY
TO BE WITHOUT
DOUBT.

LUXURY MUST AROUSE EMOTIONS.

Searching and finding modern perfection: Adrian van Hooydonk, chief designer at the BMW Group, on the new appearance in the segment of the most exclusive vehicles.

The models under the name Bayerische Motoren Werke open up a new world within the BMW portfolio. What is your idea of contemporary luxury?

We do not want to tell our customers how they should define luxury for themselves, but just want to make an attractive, diverse offer. The perception of luxury is very different worldwide. But a central aspect that becomes visible everywhere is the increasing significance of personal time. It is becoming the most valuable asset in a globalised world.

How is the wish for perfection and refinement expressed in mobility?

In today's mobile world, we spend more and more time in various modes of transport. Cars are now like personal rooms on wheels. One wants to feel completely comfortable in them. A steering

wheel that you touch, the materials that surround you have to feel perfect and the eye does not want to be disturbed by unclear lines or individual components. The interior of a vehicle is seen as a living space. It is about being surrounded by the highest possible sensuous quality.

What is the biggest challenge in the external appearance?

Luxury must be reflected to the outside world in a matter-of-fact way. There is a beautiful term for it: sophistication. For designers – our team has more than 700 employees at four locations worldwide, who are encouraged through constant competition with each other in terms of ideas – this means that every detail counts. The design has to arouse strong emotions while expressing the highest quality and durability at the same time. In order to be able to spend every moment intensely, full of meaning and beauty. Therefore, we are building a luxury ecosystem, a model family. In various forms of expression: contemporary saloons, elegant and very sporty coupés, but also vehicles that offer very luxurious space.

In the new designs, a common factor is noticeable: the reduction of lines. Do you want to increase luxury by making luxury less apparent in the design?

In this way, the design becomes clearer, more modern and more emotional. An expressive surface play is in the foreground, and the dynamics are emphasised even more than before by the vehicle body. The few but very precise vehicle lines underline the graphic design of the surfaces. The vehicle body looks more powerful, refined and luscious with the lavish surfaces without losing the sportiness that is typical to BMW. This is possible only because we work out every feature of a vehicle individually. For a BMW, one should be able to identify at first glance what kind of experience one would have with it. Especially in our large and particularly luxurious vehicles, we attach great importance to a marked appearance and the maximum possible feel-good factor in the interior. It's about freedom – and the feeling of being at home in a BMW.

A DYNAMIC APPEARANCE FULL OF GRANDEUR AND PRESENCE.

If you're used to being ahead of everyone else, the BMW 7 Series is just the vehicle for you. Even the upright, self-confident front with the iconically connected double kidney grille and the modern interpretation of the narrow headlights is impressive at first glance. The eye wanders over the gently curved airblades, which lie far outside in the front apron and elegantly surround the air intakes. The coupé-like elegant roof line underlines the fascinating sportiness of the BMW 7 Series from the side. At the latest with the precisely shaped rear lights connected by a narrow light strip and the elaborately designed, powerful rear apron it becomes clear: Technology can be described with poetic words – or with lines, surfaces and curves.

ELEGANT SILHOUETTE.

On the side, the vertical Air Breather emphasises the presence of the BMW 7 Series. From this, a chrome strip develops that begins vertically and extends beyond the rear wheel arch. It also underlines the elongated, elegant side view of the BMW 7 Series.

SLIM DESIGN, MAXIMUM EFFECT: THE HEADLIGHTS.

The particularly precisely designed front headlights extend in a clearly flattened curve towards the kidney grille. Decorative lines on the sides of the light tubes emphasise their depth and high quality.

DYNAMICS AT FIRST GLANCE: THE FRONT APRON.

In the outer area of the front apron, the gently curved airblades surround the air intakes – expressive, present and at the same time highly elegant.

SELF-CONFIDENT WIDE REAR.

The rear of the BMW 7 Series is extremely wide and self-confident on the road. A chrome strip¹ * around the tailpipes with horizontal connection creates a particularly elegant appearance, while the sharp contouring of the flanks emphasises the sportiness of the vehicle.

WHAT IT MEANS TO BE A MODERN LEADER.

TO SHAPE THE WORLD AND LEAD PEOPLE SUCCESSFULLY – FOR BOTH YOU NEED COURAGE. THE COURAGE TO KEEP QUESTIONING YOURSELF. THE COURAGE TO BE OPEN, TO LOOK FOR NEW WAYS, FOR THE BEST ONES, NOT THE EASIEST. THE COURAGE TO FOLLOW ONE’S VISION. LIKE THESE THREE “MODERN LEADERS” WHO CHOSE THEIR OWN PATH TO SUCCESS.

BODO JANSSEN

LISTEN

Bodo Janssen brought with him an ego the size of a grand hotel when he took over the family hotel chain “Upstalsboom” at the age of 33. His father had died unexpectedly in a plane crash – Janssen had to take over. He approached his task very confidently and classically: Janssen dictated terms. He did not tolerate any contradiction. His word was law.

As the resorts of the hotel chain on the German North Sea and Baltic Sea coasts were delivering ever worse results and new employees were quickly resigning, Janssen initiated an internal survey in 2010. The shocking result: “We need a different boss than Bodo Janssen” and “The fish stinks from the head”, were the most frequently expressed opinions, he says. “I was a flop manager,” he adds. Janssen understood that he had to change his leadership style.

He entered a monastery, placed himself in the hands of Anselm Grün, a Benedictine priest known for his books on spirituality and the art of living. In the monastery and with Green’s help, Janssen found a solution to his problems that changed him deeply. For two years, he worked on implementing the change in leadership and corporate culture in his company: Since then Janssen has consistently focused on his team – and he continues to work on himself. “You can grow from mistakes, I’ve experienced that myself. I have to exemplify what I expect from my employees,” he says.

Today, the 44-year-old sees himself as their partner and coach. “I serve the people. I’m here to help them evolve. From Should to Want to, that’s my mission now.” With his trainees, he hiked to the Zugspitze and even climbed the Kilimanjaro with them. The last trip was even more extreme: “I spent two weeks at the Arctic Circle with our ten trainees. From the first to the third year of apprenticeship, all trainees were there. For 14 days, we saw no other people, stayed overnight in tents, climbed the highest mountain in Spitsbergen and had to rely on each other. We are now all taking this experience with us into our everyday lives. I want to create platforms and opportunities to get into joint action.”

His actions took hold: The number of sick days and terminations fell to a record low. Employee satisfaction rose by 80 percent, “Upstalsboom” was awarded several times as an employer; for example, according to a recent “F.A.Z.” study the company is “Germany’s most sought-after employer” in the hotel industry. Since then, sales have also increased year by year. The approximately 70 hotels and holiday homes of the medium-sized group of companies based in Emden in northern Germany are well booked, and a hotel on the island of Föhr has just been added.

ANNA ROŠ

PROTECT

Top-class sport, diplomatic service, top-class gastronomy: Actually, the three fields of work do not have much in common. Slovenian Ana Roš proved her talent in all three. At the age of seven she started a sports career: the super talent was skiing for the Yugoslavian national team. After that, she was to become a diplomat according to the will of her parents, studied in Trieste and now speaks five languages. Then she met her husband and started to work in the restaurant of his parents, Hiša Franko in the Socca Valley in the mountains of Slovenia. She quickly burned for her new vocation and announced to her bewildered parents that she wanted to become a top chef – as an amateur.

Her father didn’t talk to her for half a year, her mother found it embarrassing. Still: She had found her vocation and prevailed against all resistance.

MARC NICHOLSON

COMMUNICATE

“Conversations can change the world. All major projects start with talks,” Marc Nicholson is sure. Born and raised in Canada, living in Singapore for more than 15 years, he already experienced as a child what communication means. When he was 12 years old, he was always there when his father gathered politicians, industrialists, financial jugglers, artists and inspiring surprise guests at his home table on Wednesdays. “The schedule was rigorous, it started at 9:00 pm, the discussions lasted until 1:00 am.” Marc was allowed to listen and participate; at breakfast the next morning there was the internal manoeuvre criticism. Today he’s sure: “Discussions like this contribute to world peace.”

Inspired by the cosmopolitan spirit in his parental home, Nicholson went out into the world. He worked as an actor, managed a hotline, coached the squash team of Cyprus and attended the US Navy Officers School. Until he moved to Singapore, where he now lives with his wife Jean Low, CFO of the co-working space chain JustCo., and their two children.

In Singapore he found his mission, an exclusive private club that perfected the basic idea of “Wednesday Night”: People with power meet people with ideas there. “1880” is the name of the new institution in Singapore, an allusion to how often fatherly meetings have already taken place in the last 36

With an iron will, the autodidact became a top chef. Her restaurant developed into a fixed point on the culinary map of Europe. Her international breakthrough came in 2016 with her appearance in the Netflix documentary “Chef’s Table”. One year later she was named “The World’s Best Female Chef” by the British trade magazine “Restaurant” after a survey of international gastronomic critics, cooks and restaurant chefs. Today, chefs, restaurant critics and culinary tourists flock to her restaurant. They all want to see how the 45-year-old time and again creates little wonders from products of the Slovenian mountain region. Because of the success, Ana Roš had to rethink: “We decided to professionalise the restaurant in order to further improve quality,” she says.

Anyone who burns so hard for something must also protect themselves and their team from burning. Ana Roš was clever enough to recognise the threatening burnout at an early stage: “I was the first in the kitchen and the last ... Today it’s different.” And she also protects her employees from it: “Last year we hired two women, both of them very ambitious,” she says. “After two months, they were exhausted, and I knew they’d quit at some point. We were wondering: How can we save them? Now we have a solution: They both do the morning shift, prepare food in the morning.”

Roš, mother of two children, now employs 14 people in the kitchen. The 45-year-old is extremely picky about her staff: “The most important thing for me: Everyone has to be a team player! You can learn the technique, not social intelligence. In my kitchen, people live a large part of their time together in a confined space. They must help others, listen to others, understand their concerns. Otherwise it won’t work.”

By the way, she has observed a development in young women that she particularly welcomes: “Girls used to be very ambitious, went crazy quickly, too quickly sometimes. They had to show that they were better. This can lead to problems. The new generation knows what they can do. They are much more relaxed.”

years. In “1880”, the 50-year-old gathers the most diverse characters – with an ultimate goal of saving the world: “Every new business that is founded, every documentary, every charity, every adventure begins with a conversation. I love meeting new people and finding out what they’re up to. If I can bring them together with people who make those dreams come true, so much the better.”

In his opinion, social media has robbed many people of the ability to have interesting face-to-face conversations. “It’s the only way to really solve problems.” The Modern Leaders who meet in his club should have the chance to train this ability – to the best for themselves, their employees and the world.

THE BEST WAY TO SHOW PERSONALITY.

THERE'S NO REAL ALTERNATIVE TO THE NOBLESSE OF 'MERINO' LEATHER UPHOLSTERY. A VISIT TO THE SADDLERY OF THE BMW INDIVIDUAL MANUFAKTUR SHOWS THE PRECISION WITH WHICH SUCH AN INTERIOR IS CREATED.

A soft noise fills the air. In the cutting room of the BMW Individual Manufaktur in Munich, a large piece of amarone leather is ready on the plate of the electronic cutter. An intake system, which runs under the surface, fixes the leather. "This way it cannot slip during cutting", explains Gottfried Nützl. The head of the saddlery knows what counts if the result is to meet the highest demands: High-end material and perfect workmanship.

In the tannery itself, the leather has been refined according to all rules of craftsmanship. This began with the selection of raw materials. Only large bull hides from special cattle breeds are approved for 'Merino' leather – in premium quality. The tanneries with which BMW cooperates are located in Southfield, Michigan, Freiberg in Austria and Hehlen in Lower Saxony. They process the raw material into a very fine, stable natural leather without artificial embossing or surface coating. The natural tanning also makes it voluminous, soft and breathable.

When colouring, the tanners use a particularly gentle process. In the course of this so-called barrel pigmentation, the 'Merino' leather is completely coloured in a process lasting several hours without losing the desired suppleness. Gottfried Nützl appreciates the high quality of the material: "This leather stays beautiful during the whole lifespan of the car", he says.

A camera installed above the cutting platform captures the exact contours of the leather and sends the data to the cutter's computer. The shapes of the leather pieces for four headrests and four side panels of a BMW 740Li Saloon have already been scanned. The computer arranges them on the surface of the leather so that only minimal waste occurs. Earlier, the saddler marked a spot on the leather with a special pen that was not completely free of blemishes. The computer automatically omits this marked area. "Leather is a natural product", says Nützl, "which means that there can always be irregularities. But we don't use any of it in our cars. We only process perfect pieces."

The cut is the art of the saddler.

One last check on the screen, then Gottfried Nützl releases the cut. The machine moves over the leather with a razor-sharp blade and cuts out the exact shapes. Leather pieces that later receive curved seam lines are given many small triangular cut-outs at the edges. "We call these cut-outs Knips", explains Gottfried Nützl and bends one of the cut leather pieces so that a curve is created. "We're taking some material away so the leather won't wrinkle when we put it in shape."

The next station of the leather is the sewing shop. A leather seat consists of up to 40 different parts. They are carefully assembled by hand on large special sewing machines. The leather steering wheels are even hand-stitched. "Robots do not yet exist for such work", says Gottfried Nützl, "so it's still very much up to our craftsmanship." Only the symmetrical quilting seams or the fine air holes in the climate leather are completely machined.

"In addition to the paint on the car, the colour of the leather upholstery offers the best opportunity to show personality", says Nützl. The BMW Individual Manufaktur is there for special design wishes that go beyond the standard equipment of BMW Individual. Gottfried Nützl and his colleagues offer exclusive solutions for demanding customers from all over the world and design unique interiors – from embroidered family coats of arms in the headrests to a special colour combination of the seats and diamonds in the interior trim finishers. BMW Individual Manufaktur makes everything possible – whether it's an inlay made of the wood of your own cherry tree or the individual name on the illuminated door sill.

The amarone leather parts that have just come out of the cutter now receive – before they are sewn into headrest covers – a white embroidery with the car owner's initials: Individuality in its most beautiful perfection.

BMW INDIVIDUAL.

THE EXPRESSION OF PERSONALITY.

The BMW Individual matt paint finishes available for the BMW 7 Series stand out from the crowd with their silky sheen, characteristically recognisable at first glance. This is only made possible by special pigmentation within the multi-layer coating process. A metallic paint finish forms the base. Then a perfectly matched, matt clear coat provides the special finish. This results in a silky matt surface, which is particularly expressive in the BMW Individual special paintwork Frozen Dark Silver metallic shown here.

The door sill with BMW Individual lettering already indicates the particularly selected taste when the doors are opened. In combination with the BMW Individual full leather trim 'Merino', it also underlines the clear claim to excellence of BMW Individual.

The BMW Individual interior trim finishers piano finish Black illustrate the exceptional nature of the materials selected for BMW Individual and their meticulous workmanship: Several layers of tulip wood are refined with dark piano finish and then polished until the desired deep high-gloss effect is achieved.

When even perfection is just the beginning, you are in the world of BMW Individual. Everything that is conceivable is possible here, because your taste and your imagination are the only limits. Choose from extraordinary, exclusive equipment options or put together your BMW 7 Series entirely according to your own wishes – at BMW Individual the dream of your very own BMW 7 Series becomes a reality!

[Colour samples] These colour samples are intended as an initial guide to the colours and materials available for your BMW. However, experience has shown that printed versions of paint, upholstery and interior trim colours cannot in all cases faithfully reproduce the appearance of the original colour. BMW 7 SERIES SALOON LONG WHEELBASE

¹ The EC unladen weight refers to a vehicle with standard equipment and does not include any optional extras. The unladen weight includes a 90 % full tank and a driver weight of 75 kg. Optional equipment may affect the weight of the vehicle, the payload and the top speed if the selected equipment has an impact on the vehicle's aerodynamics.

² The actual total weight of the trailer must not exceed the maximum trailer load, taking into account the maximum tow bar download.

³ Performance data of petrol engines apply to vehicles using RON 98 fuel. Fuel consumption data apply to vehicles using reference fuels in accordance with EU Regulation 2007/715. Unleaded RON 91 and higher with a maximum ethanol content of 10 % (E10) may also be used. BMW recommends RON 95 super unleaded petrol.

⁴ The data for fuel consumption, CO₂ emissions and energy consumption are determined in accordance with the measurements processes as defined by European Regulation (EU) 715/2007 in the applicable version. Data refer to a vehicle with base-level equipment in Germany, and the ranges account for differences according to the selected wheel and tyre size and the optional equipment. For these vehicles, values other than those specified here may apply for the assessment of taxes and other vehicle-related charges that are (also) based on CO₂ emissions. Version 01/04/2021

⁵ Electronically limited.

⁶ In Sport mode.

⁷ In Launch Control mode.

⁸ Range depends on various factors. In particular: personal driving style, route characteristics, exterior temperature, heating/air conditioning, pre-conditioning.

⁹ Dependent on the local electricity infrastructure. Charging time corresponds to a charge of 100 % of maximum capacity.

¹⁰ EAER (equivalent all electric range).

¹¹ ECAC (charge-depleting electric consumption).
